PROPOSAL FOR PORTAL DEVLOPMENT OF WOMEN WELFARE SCHEMES UNDER ONE CANOPY.

Problem Statement: Women Welfare Schemes Under One Canopy.

College Name: Gyanmanjari Institute Of Technology, Bhavnagar.

PROBLEM STATEMENT / OVERVIEW

❑ Government of Gujarat has implemented many welfare schemes for women in the State.

❑ In addition, there are many schemes for women welfare, but all schemes and their Portal are different, so users need to find each scheme individually.

❑ Hence, there are many portals that provides women-related Schemes, but the user cannot understand the portal well and the required information is not available for user and little bit of complicated that's why users can't interact with those portal.

❑ Moreover, the user is not aware of the location of the district office or who to contact for support with woman welfare activities.

❑ When government employees do camps, they must inform women about women welfare schemes and go to each individual house and explain the camp to them.

CONTINUE…

❑ For example, below show the women welfare schemes which is different portals.

1. Mission POSHAN 2.0. Anganwadi Services. Scheme for Adolescent Girls. Guidelines for Mission Saksham Anganwadi and Poshan 2.0.
2. Mission Shakti. Beti Bachao Beti Padhao.
3. Women Helpline Scheme.
4. UJJAWALA : A Comprehensive Scheme for Prevention of trafficking and Rescue, Rehabilitation and Re-integration of Victims of Trafficking and Commercial Sexual Exploitation.
5. Swadhar Greh Yojana
6. One Stop Center
7. Pradhan Mantri Matru Vandana Yojana

OBJECTIVE

❑ Step by Step information and Schemes are provide in a singe Portal.

❑ We are implementing Dyanamic Portal.

❑ We are Creating Admin panel also we created Dashboard. Using Dashboard admin can easily navigate or add new women welfare scheme . And this scheme are display dynamically in user poratl and also we are providing filters that is use to get filters scheme

IDEA DETAILS

SOLUTION

❏ The purpose of this project is to create a single portal that contains all the forms and portal related to women welfare programs.

❏ Solution is that we are provide a login portal through Government employees can login and updates detail about new scheme.

❏ New scheme related to women welfare to easily add on this portal with related all kind of information and documents.
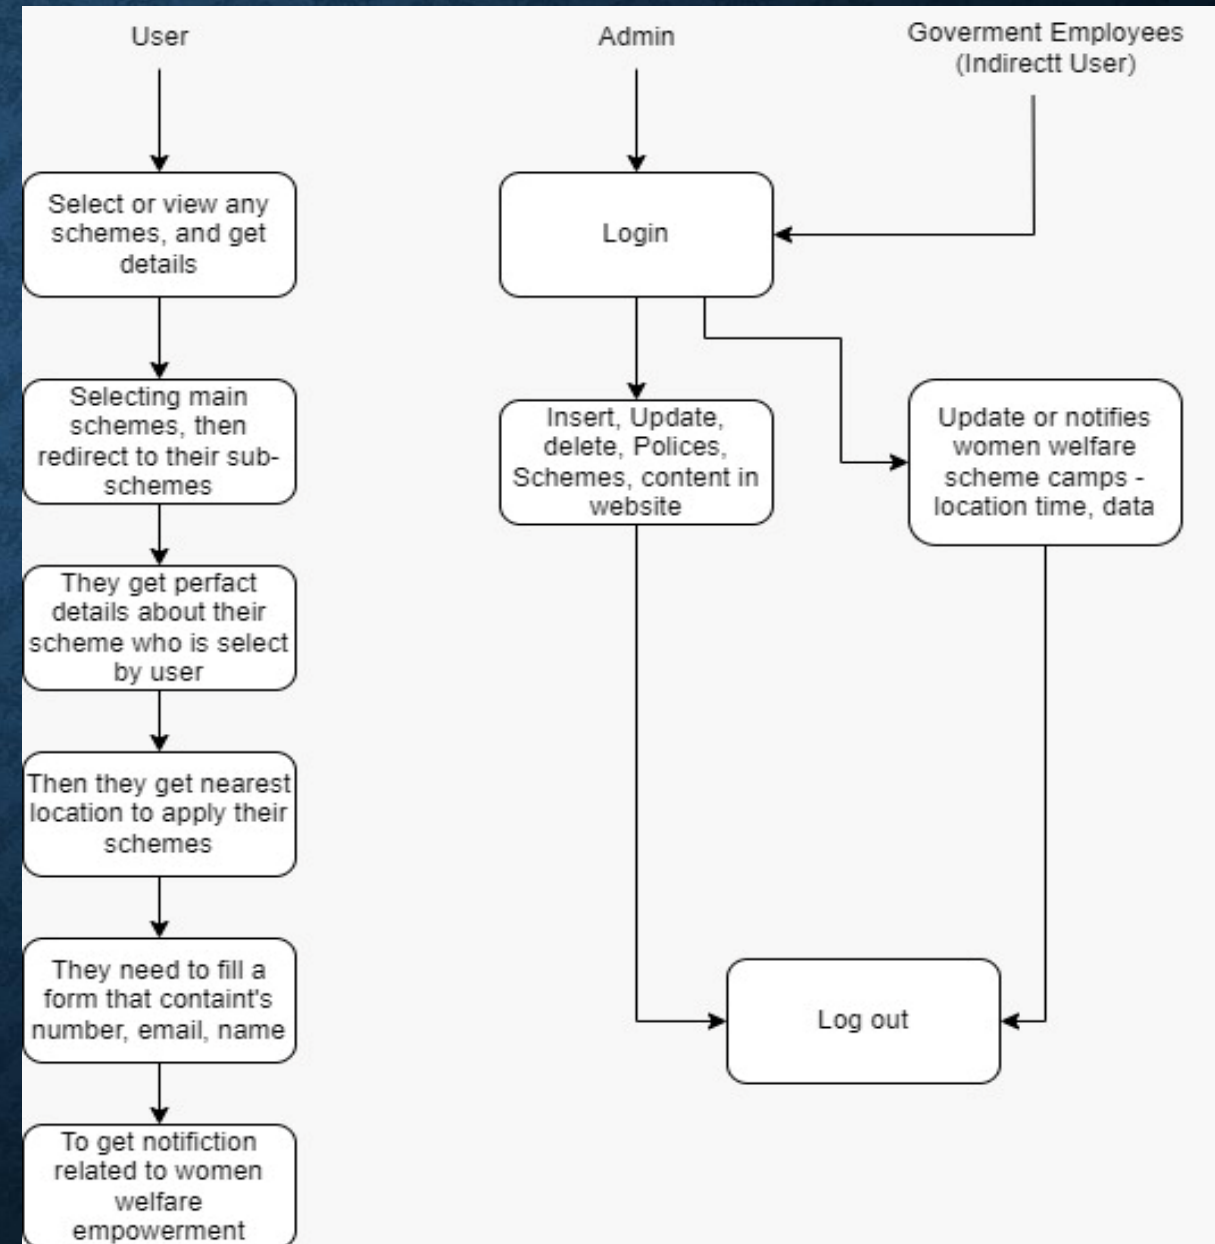

Approach Details

UML Activity Diagram

Tools & Technologies

Front End:
- HTML, CSS.
- FIGMA

Back End :
- PHP
- MY SQL.

User

Select or view any schemes, and get details

↓

Selecting main schemes, then redirect to their sub-schemes

↓

They get perfact details about their scheme who is select by user

↓

Then they get nearest location to apply their schemes

↓

They need to fill a form that containt's number, email, name

↓

To get notifiction related to women welfare empowerment

Admin

Login

↓

Insert, Update, delete, Polices, Schemes, content in website

Goverment Employees (Indirectt User)

Update or notifies women welfare scheme camps - location time, data

Log out

EXPECTED OUTCOME / RESULT

❑ **Benefits for User:**

- We Provide All the scheme related information available under one umbrella for beneficiaries including women.

- Beneficial Information about application forms and lists of necessary supporting documents.

❑ **Benefits for Gov. Employees:**

- Government employees have to give full details of women welfare schemes.

- It takes more time for employees in the office with required documents for women.

OUR FUTURE WORK

❑ In future we will adding a location link that helps to find a location of a help center.

❑ Also we are trying to implement a one click submit using a user details link we are gether all details related to all schemes after when users can visit any scheme then they can apply a one click submit option and they can apply it.

❑ To assist users in finding the district office for women welfare activities.

❑ When government employees do camps, they must inform women about women welfare schemes and go to each individual house and explain about camp to them. There for we are provide solution behalf this problem.
